

ODDS ARE, WE TESTED

CLASS II

G A M E S O N Y O U R F L O O R

At GLI, we have been testing Class II gaming products since 1989, longer than any other test lab. From the day we opened our doors, tribal regulators across North America have come to trust GLI to provide the best, most thorough, absolutely independent Class II testing of any lab anywhere.

At GLI, we have dedicated teams of Class II specialists who ensure that every test we do is done right the first time. We have tested every type of game there is in Class II from virtually every Class II supplier. In fact, we've certified more than 11,300 products since 2008, when the new technical standards for Class II were published.

GLI has more capacity and faster turnaround times than any other Class II test lab, and GLI certification letters are good in all Class II jurisdictions. For these reasons and many more, it's no wonder that GLI is the leader in Class II testing.
