

**save time, save money**  
protect revenue and ensure compliance

with **GLiCLOUD®**

Regulators everywhere asked for a tool to track and manage the enormous inventory of products on the floor in a secure way. We listened and delivered with GLiCloud.® GLiCloud is the secure, proven way to automatically control your slot floor inventory, reduce manual validation efforts, reduce machine downtime and create full accountability across the entire floor. This modern inventory control system will revolutionize and simplify the way you do business by putting device and system data in one convenient location. And because all usernames, passwords and data are encrypted, GLiCloud is completely secure. So contact us today and discover everything GLiCloud can do for your future.

**SO MUCH MORE THAN JUST TESTING**
