

## Coshatta Casino's Poker Room Non-Stop Live Poker Action!

The Northern Arapaho are gaining fame as the first tribe ever to operate Class III gaming without a tribal-state compact. After running the "full gamut" of the federal Indian gaming process, the tribe is now entitled to operate the "full gamut" of casino style Class III gambling without any

payments to the state and without any regulation by the state.

Coshatta Casino Resort is one of the largest landbased casinos in Louisiana. Non-stop gaming excitement rolls on 24 hours a day with more than 2,800 of the newest and most popular slots, over 70 table games, and a friendly staff offering personalized guest service. Recently, the Coshatta Poker Room opened its doors in its newly relocated and completely renovated facility. This beautiful, well-designed room features 16 tables and can accommodate up to 160 players. One of the most elegant poker rooms in the South, the room features a unique championship table where final tournament rounds are played.

"Since the opening of our new poker room in January of 2005, we have seen a marked increase in our poker play and in the number of new guests who have become poker fans," stated Randall Drodody, Interim Vice President of Table Games at Coshatta Casino Resort. "Our guests' enthusiasm generates a lot of excitement for poker, and we're delighted to offer them one of the finest poker rooms in the South. We offer a special table reserved strictly for finals in big tournaments, like our \$50,000 No Limit Quarterly Open, and our recent Seven Clans Poker Cup."

The popular casino offers weekly poker tournaments. On Tuesday and Friday nights, players enjoy a \$10 buy-in for Texas Hold 'Em. On Saturdays at noon, guests can enjoy a \$220 buy-in for No Limit Texas Hold 'Em. And, of course, limit and no-limit live games run continuously. The next \$50,000 "No Limit" quarterly open is scheduled for February of 2006.

Coshatta Casino Resort held its inaugural Seven Clans Poker Cup in November 2005. This Quarter Million Dollar No Limit Hold 'Em Poker Tournament drew 259 partici-

pants and paid out through 20th place. Each winner took home a generous percentage of the take, with the top prize paying over \$75,000 plus a diamond-encrusted gold keepsake bracelet adorned with the tournament's name. The poker-savvy gentleman who captured first prize was quite pleased with his winnings - he donned his new bracelet immediately while accepting congratulations from other participants.

The next Seven Clans Poker Cup Quarter Million Dollar No Limit Hold 'Em Poker Tournament is scheduled for May of 2006. Participants can buy in, or win a seat in one of many satellite tournaments, consisting of one table no limit shoot-outs.

"At Coshatta, our table games choices are many and varied. In addition to everyone's favorites - blackjack, roulette, and craps - we also offer let it ride, three-card and four-card poker, mini-baccarat, and pai gow," said Drodody. "We're very excited about two new games coming in 2006: Texas hold 'em bonus poker and flop poker. If you're a tables player, Coshatta's your best place to play!"

"Just let your gaze drift up to the top of the dome and out across the gaming floor," Drodody added. "Coshatta is big. Slots and tables as far as the eye can see! Our 107,600 square foot gaming floor is the largest in Louisiana. Cheers and shouts from the craps tables mingle with the sounds of slots pinging and payouts jingling. You really should come visit Coshatta!" ♣
