## Confirm integrity. Secure profits. Advanced verification technology by GLI.

**Unverified files. Unoptimized games. Undetected accounting errors.**

Your slot floor and SMS is vital to your tribal enterprise. You can't allow it to be a point of vulnerability.

If the content on your gaming machines is incorrect, your games may be working inefficiently and affecting profit potential. And any inconsistencies could also be causing errors in your slot accounting system. With regular system verification by GLI, you can protect the integrity of your gaming floor. VERIFY your system now with the most advanced technology by GLI.
