V-PAC™ PRO — The Next Generation of Air Purification

Purifies and Disinfects Your Air by Reducing Smoke, Odors and Germs

Positive Impact on Occupant Health

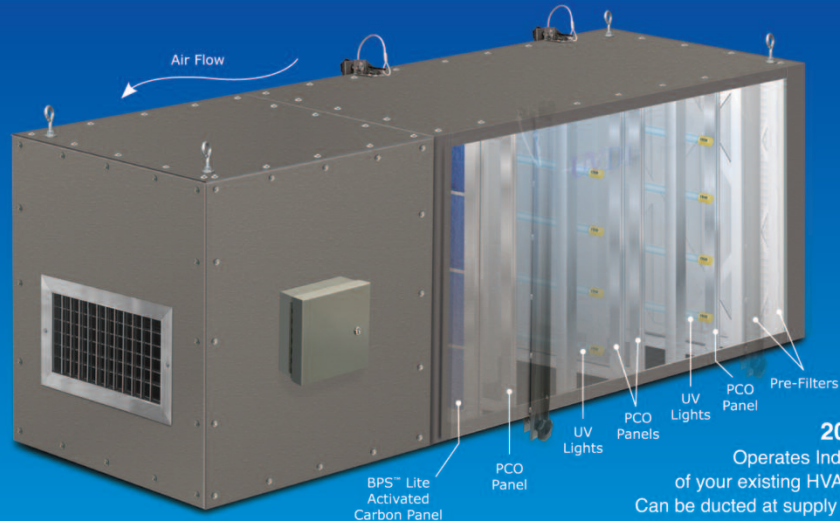

Effectively removes both particles of smoke and smoke odor while continuously reducing germs and viruses that can potentially cause illnesses. The superior air quality provided by our advanced technology results in a healthier work environment.

Environmentally Friendly

Chemical-free and, unlike other air purification technologies, does not produce ozone.

Saves Energy

Reduces make-up air requirements for dilution and has low power consumption.

2000 CFM

Operates Independently of your existing HVAC system - Can be ducted at supply and return.

This Technology is Used in Casinos, Airports, Hospitals, Universities and Museums.

Exhibiting at...

NIGA

San Diego Convention Ctr • San Diego, CA • MAR 24-27 • Booth #1002

13th Annual Tribal Casino & Hotel Development Conference
