How can you be sure?

With all the inventory on your slot floor, how can you be sure you have the most accurate, up-to-date information ensuring each piece of hardware and software on your floor is compliant? GLICloud® automatically and digitally tracks all GLI certified gaming devices and components using real-time information and instantly notifies you of any status changes. Now in use on more than 90,000 EGMs in North America, GLICloud saves time & money, protects revenue and ensures compliance.

Contact GLI today for a free demonstration and discover how you can be sure and get more with GLI.
