

Building Relationships on TRUST for Over 125 Years

Earning the trust of our clients in Indian Country and their stakeholders is paramount. As we close the 2020 calendar year and move into 2021, we will continue to uphold our longstanding values of relationships, teamwork and integrity.

Continued dialogue and the sharing of knowledge and new ideas are essential to the success of any project team. Such conversations are more important than ever in today's rapidly evolving world, with new opportunities but also new challenges that everyday change brings us and our partners.

In the current pandemic working and living environment, we believe that effective cooperation and communication remain key to finding joint solutions and building strong and lasting relationships – especially with our clients, employees and shareholders.

Our prime focus is delivering excellence to our employees, suppliers, trade partners and clients.

I invite you to visit our website, www.tutorperinibuilding.com, and browse our company's strengths and construction services portfolio. I am confident that our portfolio will encourage you to consider TPBC to be part of your current and future project development.

I would like to offer my thanks for the patronage and continued business support of our valuable Native American clients.

Be safe and be well,

Brian Thomas
Executive Vice President
Western Building Operations
