

ONE CONNECTION CHANGES EVERYTHING

When you connect JCM's new **GEN5™** printer and **iVIZION®** bill validator to your CMS, **you unleash the power of FUZION®, a patented technology.** Every machine on your slot floor could deliver a server-driven suite of player-focused, revenue-driving features.

FUZION could turn every slot machine into a multi-line profit center, with slot play, sports book wagers, promotional couponing and lottery ticket vending at your player's fingertips.

FUZION is at the core of the future-ready casino floor. In the meantime, from first touch to last touch, the most dependable, versatile BV/Printer combo in the business has your player experience covered.
